ABOUT US
Women Moving Millions is a growing community of over 200 members representing 12 countries, each of whom has made a big, bold contribution of $1 million or more directly to organizations or initiatives of their choosing that work on behalf of women and girls. As a US-based registered non-profit, our mission is to catalyze unprecedented resources for the advancement of women and girls. We amplify our members’ individual impact by sharing knowledge, strengthening skill sets, developing leaders and leveraging networks, and we expand the power and impact of our community by offering platforms and opportunities for collective action.

THE ANNUAL SUMMIT
Women Moving Millions’ Annual Summit is an invitation-only event for our members, prospective members and select guests. This event will be held in New York City, September 18-20, 2014. This year, our Summit is called “The Story of Power.” Our robust and interactive program features leading experts on various aspects of power including the power of partnerships, money, girls and more. However, as community is core to WMM, our events also provide time for participants to get to know each other and reconnect. As our events are about meeting and spending time with each other, there will be lots of opportunities to do so.

THE CALL TO ACTION
At our opening evening we will launch a Call to Action that invites women to go ALL IN FOR HER as funders and champions for the global advancement of women and girls. We will highlight the urgent importance of funding with a gender lens as not only a key strategy for achieving greater gender equality, but sustainable global development as a whole. It’s time. We are calling on women to own their power and activate it for positive change. As part of this event, Women Moving Millions will bring together Power Partners in conversation to discuss and illuminate the impact that going ALL IN FOR HER can achieve.

“In every community, there is work to be done. In every nation, there are wounds to heal. In every heart, there is the power to do it.”
Marianne Williamson

WORKSHOP #3: GENDER NORMS: A KEY TO IMPROVING LIFE OUTCOMES IN VULNERABLE POPULATIONS

**PRESENTER:** Riki Wilchins, Executive Director, TrueChild

**PRE-FUNCTION ROOM**

Decades of research has found that challenging harmful gender norms are a key to effective grant-making that improves life outcomes in vulnerable populations. That’s why major international donor institutions like CARE, PEPFAR, UNAIDS, USAID and WHO have all embraced “gender transformative” initiatives that challenge rigid gender norms, and found them effective. The World Bank has found that to improve gender equity among women and girls, they first have to begin addressing rigid feminine ideals, and that’s true from Singapore to Sweden. In fact, gender impacts every issue donors address, yet US donors often overlook gender norms, or disconnect it from race, class, sexual orientation and religion. Join this open presentation and group discussion about the key terms, ideas and research behind “gender transformative philanthropy,” and how a core group of dedicated funders have begun doing innovative giving that reconnects social and gender justice. Toolkits and leave-behinds provided.
WORKSHOP #4: INVESTING IN SOCIAL CHANGE THROUGH DOCUMENTARY FILMS

PRESENTER: Julie Parker Benello, Co-Founder, Chicken & Egg Pictures, Ryan Harrington, Vice President of Artist Programs, Tribeca Film Institute

RUSACK ROOM

This interactive “soup to nuts” workshop will bring you behind the scenes into the documentary filmmaking process from the development of an idea and a story through to the launch of a film, audience development, community engagement and social impact. Learn about the criteria and filters we use to “greenlight” a project, and understand the production process and the value-add of creative mentorship where art, craft and story converge. We’ll explore the unique challenges women filmmakers face, and the triumphs and opportunities they have created. We will decode the “multiple distribution platforms” you’ve been hearing about, and examine the meaning and nuance of “social impact” through non-fiction films. We will share two case studies of documentaries directed by women - AMONG THE BELIEVERS (a work in progress), and THE SUPREME PRICE, recently launched with Gucci’s CHIME FOR CHANGE campaign - each one funded and mentored at different points along the way by both Chicken & Egg Pictures and the Gucci Tribeca Documentary Fund with the Tribeca Film Institute. You will walk away from this workshop with a working knowledge of film-anthropy, a better understanding of the funding and support ecosystem that is in place, and a hunch for where you and WMM can play a pivotal role.

CLOSING CEREMONY

Our time together ends here, but our story is just beginning. Together we will look back and look forward, as we write our shared conclusion during a thoughtful and reflective closing ceremony.
